PROFILE

Multi-award-winning First Class Honors graduate with one year of internship experience in machine learning and data analytics. Enthusiastic about solving complex problems and creating innovative data-driven solutions while driving organizational success. Values curiosity, adaptability, and delivering excellence in every project undertaken.

WORK EXPERIENCE

Andromeda Maritime Solutions Pvt. Ltd

Bangalore, India

Deep Learning Intern

April 2024 - August 2024

- Analyzed, tested, and benchmarked the performance of mono and stereo images under 6 different categories.
- Implemented a SLAM pipeline using stereo camera frames and 6 IMU sensor fusion, incorporating CNN-based feature extraction (transfer learning).
- Analyzed 7 different monocular and stereo image rectification (Image processing techniques & learning-based approach) and integrated OpenCV and Intel MiDaS for depth estimation.

SRM Institute of Science and Technology

Chennai, India

Machine Learning Intern

February 2024 - March 2024

- Applied 3 techniques (wavelet transforms/FFT/onset detection) for noise filtering/feature extraction. Developed an LSTM model to detect partial discharge patterns.
- Trained 11 models (Ensemble, Linear, Non-linear Tree, Bayesian) for path planning and performed performance analysis benchmark with dead reckoning algorithm.
- Deployed YOLOv5/OpenCV for aquatic life and pollution detection in edge (Jetson Nano); ran CNN models in real-time.

Feynn Labs Services

Chennai, India

Machine Learning Intern

May 2023 - July 2023

- Performed EDA and Sentiment Analysis on EV/Non-EV data (sales, costs, reviews). Applied segmentation using K-means and employed LSTM for forecasting demand and production trends.
- Visualized and reported sales, customer requirements, sentiment, market trends, and geographic hotspots.

SKILLS & INTERESTS

Skills: Microsoft Suite | Google Suite | Git/GitHub/GitLab | Linux/Windows | Matlab

Programming Languages: Python | R | SQL | C | Embedded C | Bash/Shell

Machine Learning & AI: PyTorch | TensorFlow | Keras | Scikit-learn | Hugging Face | OpenCV | SciPy

Data Visualization: Seaborn | Matplotlib | Plotly | Tableau | Power BI

Big Data & Cloud: Spark | HDFS | Docker | AWS (S3, Lambda, EC2, SageMaker) | Azure (Data Factory, Databricks, SQL, Data Lake)

Interests: Analytics, Speaking at Universities, Reading, Badminton and Cooking.

EDUCATION

Dublin City University

Dublin, Ireland

MSc Computing: Data Analytics

September 2025

Saveetha Engineering College

Chennai, India

B.Tech: Artificial Intelligence and Data Science (First Class Honors)

May 2024

ACHIEVEMENTS

ICAME Conference <u>Best Paper Award</u>	March 2024
Nirala State Level Govt. Hackathon <u>Winner</u>	September 2024
IBM Z Datathon <u>Global 3rd Prize</u>	October 2023
MTS Nanda Student Innovation Award <u>Winner</u>	January 2023
National Level Arms Community's Inventor's Challenge <u>Runner Up</u>	December 2022
Climate Data Hackathon <u>Most Entrepreneurial Team</u>	May 2022

PROJECTS

- Automatic Annotation and Ground Truth Builder Using Multi-Agent LLM Models for Images.
- Integrating image-based LLMs on edge devices for underwater robotics.
 - o <https://doi.org/10.1117/12.3014446>
- IOT Enabled Gait pattern recognition and correction for ICD-10.
- Real-time DNN-powered machine control for immersive chat-bot conversations.
- Real-time Gesture Recognition For Continuum Robot Arm Manipulation Using Deep Learning.
- Realtime Robot's End Of Arm Tooling (EOAT) Usage Prediction Using Computer Vision.
- Severity Grading of Knee Osteoarthritis using Neural Networks.
- Automated Trading Bot Using Market Sentiment Analysis.
- Streamlined Data Profiling and Automated Machine Learning Model Generation.

CERTIFICATIONS

- | | |
|--|---------------|
| • Google Data Analytics Professional Certificate | November 2023 |
| • Research Data Management and Sharing | December 2023 |

LEADERSHIP EXPERIENCE

Saveetha Engineering College - Robotics Club <i>Project Manager</i>	Chennai, India <i>August 2022 - May 2024</i>
• Directed and managed 5 projects related to IoT, ML, and microcontrollers. Enhanced teams performance by providing resources and support. • Coordinated and hosted four workshops and two boot camps per semester for club members.	
Machine Learning Community, SEC <i>Volunteer/Member</i>	Chennai, India <i>August 2023 - May 2024</i>
• Conducted 2 tech events across 13 departments conducting 5 workshops every semester on the field of artificial intelligence.	
Drestein, National Level College Symposium SEC <i>Lead Coordinator</i>	Chennai, India <i>November 2022 - November 2022</i>
• Hosted, conducted, and coordinated 35 technical events and 44 workshops across 13 departments.
